

KES DAY, INC.

Community is a way of life among the homes in our caring neighborhood setting. Our program without walls is designed to use every aspect of this environment as a natural training resource. Utilizing the senses- sounds, sights, smells, and tastes-our program will excite learning and pleasure in severely disabled Consumers.

Communication classes, music, recreation, and volunteer projects will enable Consumers to gain various skills that will assist them in achieving their personal goals, obtaining jobs, and enjoying life's many treasures. Daily activities are our keys to stimulate Consumers physically, spiritually, mentally, and socially.

KES DAY, Inc.'s warm and caring atmosphere affords caregivers relief by providing a safe and enjoyable haven for their loved ones. This eliminates the dependency on costly institutionalized care and increases the quality of life for all participants.

OUR HISTORY

After fifteen years of Licensed Social Work and nine years of Substance Abuse Counseling, KES, Incorporated was formed as a family-owned, personal care business. KES, Incorporated focuses on providing quality residential, Day Habilitation, and community support services for children, senior citizens, and persons with mental retardation and developmental disabilities.

OUR MISSION

Our Mission is to provide excellence in care and services while assisting in the development and enhancement of the quality of life for adults and children with emotional, psychological, social, and/ or physical challenges. All components of care involve providing a safe, nurturing, and productive living and learning environment for Consumers with Special Needs.

OUR STAFF

- Licensed Social Worker
- Licensed Counselor/
- Mental Health Professional
- Activity Coordinator

OUR SERVICES & STAFF

The dedicated members of our organization extend their warmest WELCOME to those who enter our care. Our services focus on the individual's whole life, build upon relationships, and respond to changing life circumstances. We perform individual personal needs assessments to maximize participants' strengths and provide gentle support for their limitations. Results from these assessments enable us to create individualized nurturing activities that promote our Consumers' goals and personal interests. A Registered Nurse and a Licensed Professional Social Worker evaluate any additional mental and/ or physical needs of our Consumers. Medical treatments, when necessary, are addressed by our Staff Physician.

We continually evaluate and improve our program to ensure that the highest quality of service is being provided. Education and support are available for families through counseling and caregiver support groups.
